### 3 Take your smartphone and install the "Google Authenticator" app via the links below

Android: https://play.google.com/store/apps/details?id=com.google.android.apps.authenticator2&hl=de&gl=US\_

Apple:

https://apps.apple.com/it/app/google-authenticator/id388497605

## 4 Open the installed Google Authenticator app and click the colored (+) sign

Authenticator

5 Scan the QR code with the Google Authenticator (smartphone), which appears on the pairing page (computer) and then click on "I have scanned the QR code."

6 Now enter the code that appears in the Google Authenticator app in the form field of the website, then click "Check Google Code"

### 7 Take your smartphone and install the SANUSWALLET 2.0 application through the following links

Android: https://play.google.com/store/apps/details?id=com.sanuslife.sanuswallet2sanus

Apple: https://wallet2.sanuscoin.com/ Important: Use the SANUSWALLET manual to make the necessary backup settings for your SANUSWALLET 2.0 so you can continue to access your SANUSWALLET 2.0 and SANUSCOINS even if you lose your mobile phone.

Download the SANUSWALLET manual here (successful login required): https://sanuslife.com/deu/downloads-files/download/1737

8 After installing the application, open it and click on the scan icon at the bottom of SANUSWALLET 2.0

9 Scan the QR code, displayed in the pairing page SANUSLIFE (computer) with the SANUSWALLET 2.0 app

10 Pairing was successful when the following sentence is displayed under Status in green: "Pairing completed successfully. You have stored the SANUSCOIN and bitcoin receiving address."

#### Managed! You don't have to do anything else!
